- **Specialization**: Cybersecurity | **GPA**: 92

2022 | CSPP and SOC Analyst, See Security College.
2018 | System and Network Administration, J6 & Cyber Defense Directorate.
2018 | Java Programming, The Open University.
2017 | Matriculation Certificate, Shazar High School.
    *Graduated with High Honors, majoring in Computer Science.

Professional Experience

System Administrator, Barak Capital   08/2023 – now
- Manage Linux and Windows servers and user environments to ensure performance, security, and uptime.
- Implement DevOps tools (Git, Ansible, Docker) to streamline deployments and automate infrastructure tasks.
- Develop internal scripts in Bash and Python across cross-platform systems.
- Designed and developed monitoring systems for applications and services using Django, with hands-on experience managing large-scale PostgreSQL and MySQL databases.
- Administered firewalls and network devices to support a secure, stable, and efficient network infrastructure.

Military Experience

Chief Operating Officer, C4I Corps   11/2021 – 08/2023
- Directed operational planning and Gantt tasking under HQ supervision for critical communications and IT units.
- Coordinated secure implementation of classified systems and high-level operational communications.

Battalion Communications Officer   11/2021 – 11/2022
- Served as senior advisor to the battalion commander for IT, systems reliability, and tactical networking.
- Managed over 300 communication endpoints, networking equipment, and operational infrastructure.

Staff Commander & IT Instructor, J6 Officers Course   03/2018 – 11/2020
- Led the training and mentorship of over 100 cadets preparing for C4I officer roles.
- Instructed on RF communication, system administration, secure network protocols, and field operations.
- Emphasized leadership, critical thinking, and advanced decision-making under pressure.
